

INTERESTED IN ATTENDING UNIVERSITY HIGH?

University High School is a college prep high school where students of demonstrated motivation and ability engage in a rigorous education. A focus on integrity, an honor code, and self-awareness is evident.

As a Title I school, University High School serves traditionally under-represented students and families.

Students begin advanced and AP level classes as of freshmen year. Our freshmen are introduced to the concepts of grit and growth mindset that remains a constant for all four years. Seven Habits of Highly Effective Teens is embedded into our Advanced Freshman English curriculum, and the habits are reinforced at each grade level. University High School offers Advanced, Pre-AP, and AP level classes at each grade level and in all four core subjects. Dual Enrollment is also an option in select core classes. AP electives are offered in Spanish, Computer Science, and Psychology.

As a school within a school, University High School students enjoy the benefits of being a member of an academically focused small learning community along with all the opportunities that a comprehensive school provides. Our students engage in world language, fine arts, and Career and Technical Education courses alongside their peers at our host school, Tolleson High School. Athletics, clubs, and student government are also integrated between the two schools.
